

# A new way of drawing foundations

These foundations make everything easy

The coloured dotted lines  
(Perfect Point guides)  
tell you where to start  
sewing in the seam  
allowance so your points  
come out perfect!

The numbers tell you what order  
to assemble the patches

The letters tell you what order  
to assemble the foundations.

The arrows tell you which way  
to iron the seam allowance to  
avoid awkward, thick bunches  
of fabric when you are  
assembling the block.

The information in the seam  
allowances tells you what  
foundation goes on what side  
to help avoid accidents.  
Less unsewing!!
